STEVE WILSON

SKILLS

What sets me apart from everyone else is that I am ambitious, I tend to pursue new ways to improve how I code and teach others about my code. I am driven to excel at whatever I may face during a project.

OBJECTIVE

Get started somewhere as a full stack developer, work for a company I can grow with and learn from.

EXPERIENCE

Carpenter | Edward Smith | 2018 - 2019

Worked as a team to build custom homes, I have always worked around construction since I was 18.

MORE INFO

I have excelled in every bootcamp I have attended and have done more than what was expected in assignments and projects with adding animations or extra CSS.

EDUCATION

Certificate | Web Dev Fundamentals | NuCamp

This bootcamp came before the Full Stack and it gave me further knowledge in HTML, CSS and JavaScript after studying books prior to attending.

Certificate | Full Stack development | NuCamp

With this bootcamp I have gained a solid foundation in Bootstrap, React, React Native, and NodeJS

2020 | Udemy

I have completed several courses on Udemy with certificates given at the end. Courses include several Python (Flask included) courses, SQL, Data Science, C++ and an advanced JavaScript course.

LEADERSHIP EXPERIENCE

During my Bootcamps I have worked well with others in zoom meetings and breakout rooms and was able to be clear and understanding when describing my code and figuring out problems as a group.
